

Note: 000001

Number	000001
Version	4 from 07.06.2010
Status	Release to Customer
Language	EN
Short Text	Documentation Overview
Responsible	John Mantle
Component	ALL-ALL-DOC
	All Products – All Releases - Documentation

Symptom:

Customer needs implementation information regarding QuantityWare products.

Cause:

Documentation overview necessary.

Solution:

When implementing QuantityWare products, the following two major steps are necessary:

1) TECHNICALLY INSTALL THE PRODUCT.

Aim: The functionality exists in the target system.

This documentation is available on our website www.quantityware.com : Support -> Downloads -> BCP Documentation or BCG Documentation -> "Technical Installation Documentation"

It is designed for use by basis people physically installing the product on the target system.

One installation guide is available for each SAP release level supported.

2) CONFIGURE AND USE THE PRODUCT.

Aim: The functionality is made available to, and used by, the application.

This documentation is available on our website www.quantityware.com : Support -> Downloads -> BCP Documentation or BCG Documentation ->: "Customising and Configuration Documentation"

It is designed for use by the project team that is responsible for the implementation of your BCP or BCG solution based on your requirements.

The proven Project Assessment and Implementation Guideline (PAIG) documentation describing the recommended project methodology for BCP or BCG is available on our website www.quantityware.com : Products & Services -> Download -> BCP or BCG

If additional documents are required, they will be detailed in the appropriate section of our documentation site.

Transport Reference:

No SAP-based transport

See [BCP & BCG Documentation](#) for documentation downloads.
