

QuantityWare

Company Profile

Founded in 2006 and trusted by the Oil & Gas industry, QuantityWare is the leading provider of complex quantity conversion solutions to SAP Oil & Gas customers worldwide.

Experience

We have been working in SAP solutions for the Oil & Gas industry since the 1990s, gaining experience, sharing and creating vision. As a result, we provide the only certified and fully integrated SAP ABAP quantity conversion solution for all oil, gas and allied industries using SAP Oil & Gas: the QuantityWare Bulk Calculations Solution (BCS).

Solution

BCS is comprised of a central, modular software solution, enhanced with a comprehensive knowledge base, support portal, training and expert guidance via FAQs and Certified third-party consultants.

The word "Solution" is important. The fundamental complexity and significance of quantity conversions with Oil & Gas-centric ERP systems require a solution, not just software.

Proficiency

Based exclusively in Germany, our expert core team has unique SAP Oil & Gas experience. We work with customers and consultants around the globe to ensure that our customers can depend upon 24x7x365 reliability of their quantity conversions, and influence further BCS development.

Communications

We are a digitally-aligned company relying on the latest communications methods to ensure secure, fast, and efficient information flows between all parties concerned in our area of operation.
