

## Note: 000127

---

### Overview

Number	<b>000127</b>
Description	<b>Error Tolerance on QW Installation Test</b>
Version	<b>01 from 27.03.2026</b>
Status	<b>Released to Customer</b>
Language	<b>EN</b>
Responsible	<b>Guido Jager</b>
Product	<b>BCS</b>
Category	<b>Advanced Development</b>

---

### Symptom

With this note, the QuantityWare Installation Test has been changed for a wider error tolerance. In case of arithmetic system exceptions e.g. by running the Installation Test on a lower kernel release, these exceptions are caught in an application log. Instead of a dump, the Installation Test continues processing, the consultant is in a position to locate, analyze or to report the program or scenario in which a program exception occurred.

After you have installed this note, installation test run logs can also be selected and deleted from the installation test log display.

---

### Cause

Missing functionality.

---

### Solution

Apply this note.
